CMP Statement Regarding at 70 Mulberry Street

CMP has been grateful for the care and support the City, our colleagues, and the community have showered us since the 5-alarm fire broke out on Thursday night. Many of you offered help, mobilized others to help, and are eager to do something. It may come to a point that we will reach out and ask for help, after we have a chance to conduct a more thorough assessment of our needs. At this moment, our first and foremost priority is to continue our role as a community service organization, minimize service interruption, and resume our program activities as soon as possible. For the sake of our clients and our team, re-committing ourselves to serving those in need is the best healing process.

Started Monday, January 27th, we have set up our temporary headquarters at Chung Pak Senior Housing's community room, 96 Baxter Street, 13th floor, New York, NY 10013, where our main operations will be based. We will continue to provide our walk-in job placement and entrepreneurial assistance from that location. We are further finalizing other locations to house our classroom training programs and our Chinese School of 600+ students. We target to resume regular program services on Monday, February 3rd. Chinese school will start our new semester as planned on February 15th.

All other special events and projects remain on schedule, with updated locations to be announced if applicable.

Please continue to follow our latest development on our website and social media, www.cmpny.org, Wechat @CMPNY70, KaKao Talk @CMPNewYork, Facebook and Twitter @CMPNewYork, for updates of our program activities and service locations. For inquiries, please contact us through info@cmpny.org.
